Fall 2026

CSCI200 Introduction to Computers

Class Day	:	_____	Class Time:	_____	Room:	_____
Instructor	:	_____				
E-mail	:	_____				
Office	:	_____	Office Hours:	_____	Extension No:	_____

I. Course Description

The course aims at making students competent in computer-related skills. It is supposed to develop basic computer interface knowledge by providing an overview of managing folders and files, opening a start menu, as well as hands-on practice on common software applications such as Word, Excel and Power Point. The students will learn how to use the most features of Microsoft Office mainly Word documents, Excel spreadsheets and PowerPoint presentations.

Moreover, the course aligns with the Cisco Networking Academy® Digital Awareness course.

II. Course Objectives

CO-1: To have basic knowledge in windows interface

CO-2: To develop applications using Word Processors

CO-3: To develop Presentations using Presentation software

CO-4: To develop spreadsheet applications using Spread Sheet software

CO-5: To combine all previous applications in one

CO-6: Explain what a computer network, the Internet is and how computers communicate

CO-7: Send and receive email, add attachments

III. Course Learning Outcomes

CLO-1: Create and Format documents (using a word processor)

CLO-2: Create spreadsheets, apply formulas and Produce charts (using spreadsheet software)

CLO-3: Create and Design presentations (using presentation software)

CLO-4: Integrate documents, spreadsheets, and presentations in one application/file

CLO-5: Demonstrate a basic understanding of computer hardware, software and Networks

Recognize basic Internet functionality, explore e-learning applications and windows interface.

IV. Mapping to program outcomes *(PLOs are listed at the end of the syllabus)*

Introduction to Computers	PLO -1	PLO -2	PLO -3	PLO -4	PLO -5	PLO -6	PLO -7	PLO -8	PLO -9
CLO-1	X		X						
CLO-2	X								
CLO-3	X						X		
CLO-4	X								
CLO-5	X				X		X		

V. Topics Covered

- 1 Basic Windows Interface
- 2 Email
- 3 Word
- 4 Excel
- 5 PowerPoint
- 6 Embedding Files
- 7 CISCO-Digital Awareness

VI. Prerequisite: ENGL051

Co-requisite: None

VII. Course Material:

Book (Microsoft Office 2010 Simplified by Kate Shoup, Visual; 1 edition (May 24, 2010). ISBN: 0470571942) or handouts

VIII. Software(s) required: Office 2010 of above

IX. Course Assessment

# Activity	Percentage	Date
Word	25	Week5
Excel	25	Week9
CISCO	10	Week10
Power-point	15	Week12/13
Final Exam	25	Week 15

X. Detailed Schedule

Week		Book Reference	Topic Details
Week 1 (Sep 29-Oct2)	Lecture 1	Handout	Syllabus: reading and explaining Windows features: Creating folders, copying folders, deleting folders, moving files, searching for a document, Overview of the START button...
	Lecture 2	Handout	Email: Basic parts of an email message, create email, add attachments
Week 2 (Oct 6 - 9)	Lecture 1	Microsoft Office 2010 Simplified	WORD INTRODUCTION: The Word Environment (title bar, quick access toolbar, tabs, ribbon, groups, buttons, dialog box launcher...) FILE TAB 1. New, Open, Save, Save as 2. Print, Close, Options (Advanced: changing measurement units to from inches to cm and vice versa) HOME TAB 1. Clipboard: Cut, Copy, Paste, Paste Special, Format Painter
	Lecture 2	Microsoft Office 2010 Simplified	1. Font: Font style, Font size, bold, italic, underline (style & color), change case, Strikethrough, Subscript, Superscript, Effects, text highlight color, double strikethrough, small caps, all caps, character spacing, clear formatting 2. Paragraph (Alignments, Directions, Bullets, numbering, Multilevel List, Decrease Indent, increase Indent, Line spacing, Indentation (before& after text, first line), Spacing (before& after paragraph), Shading, Borders, Sort, Show/Hide) 3. Styles (Headings) 4. Editing (Find, Replace, Select) Problem Solving
Week 3 (Oct13-16)	Lecture 1	Microsoft Office 2010 Simplified	1. INSERT TAB 2. Pages (Cover Page, Blank Page, Page Break) 3. Tables (Insert and delete rows and columns, merge and split cells, borders and shading, cell alignment, text direction, adjust column width and row height)
	Lecture 2	Microsoft Office 2010 Simplified	4. Illustrations (Picture, Clip art, Shapes) 5. Hyperlink 6. Header & Footer (Header, Footer, Insert page number & Date/Time, adjusting header and footer size) 7. Text Box, WordArt, Drop Cap 8. Symbols Problem Solving
Week 4 (Oct20-23)	Lecture 1	Microsoft Office 2010 Simplified	PAGE LAYOUT TAB 1. Page setup (Margins, Orientation, Paper size) 2. Page Background (Watermark, Page Color, Page Borders) REFERENCES TAB 1. Table of contents (Table of Contents, Add text) - Not for exam 2. Footnotes (Insert Footnote & Insert Endnote) Problem Solving
	Lecture 2	Microsoft Office 2010 Simplified	REVIEW TAB 1. Proofing (spelling & Grammar, Word Count) 2. Language (Set Proofing Language) VIEW TAB 1. Document Views 2. Show Ruler

			3. Zoom Problem Solving: Solving Sample Word Exam
Week 5 (Oct 27-30)	Lecture 1 Lecture 2	Microsoft Office 2010 Simplified	Word Exam (On Campus: Computer-Based in Computer Lab)
Week 6 (Nov3-6)	Lecture 1	Microsoft Office 2010 Simplified	EXCEL INTRODUCTION 1. The Excel Environment 2. Understanding the Workbook concepts, Assign Worksheet Names, delete a Worksheet, Add a Worksheet, Move a Worksheet, Copy a Worksheet, Format the Worksheet Tab Color, Hide and Unhide 3. Selecting columns, rows, cells and ranges 4. Entering, deleting and editing data
	Lecture 2	Microsoft Office 2010 Simplified	HOME TAB 1. Clipboard (Cut, Copy, Format Painter, Paste [Formulas, Values]) 2. Font (Font style, Font Size, Underline(double), highlight, Strikethrough, Superscript, subscript, Font color) 3. Border & Shading 4. Alignment (Text alignment, Text Control, Right-to-left, Orientation, Wrap text and Merge & center) 5. Equations using arithmetic operators (*, +, -, /) 6. Number (General, Number, Currency, percentage, text) 7. Absolute reference vs Relative reference
Week 7 (Nov10-13)	Lecture 1	Microsoft Office 2010 Simplified	HOME TAB 1. Editing (Functions [Sum, Average, Count Numbers, Max, Min], Clear, Sort & filter, Find & Select) 2. Styles (Conditional Formatting [highlight cells rules: greater than, less than, between, equal to, text that contains]) 3. Cells (Insert, Delete, Format [Cell size, visibility (Hide/Unhide), organize sheets]) PAGE LAYOUT 4. Page setup (Margins, Orientation), Sheet Options (Sheet right-to-left, view, print) Problem Solving
	Lecture 2	Microsoft Office 2010 Simplified	INSERT 1. Charts (Bar only) 2. Text box FORMULAS 1. Logical (if), <u>nested if</u> [not for exam, mention IFS (for Office 2016 and above)] Problem Solving
Week 8 (Nov17-20)	Lecture 1	Microsoft Office 2010 Simplified	FORMULAS 2. Statistical (CountA, Countblank, CountIf) 3. Math (SumIf, Averagelf) Problem Solving
	Lecture 2	Microsoft Office 2010 Simplified	FORMULAS 4. Math (SumIf, Averagelf) 5. Text (Concatenate or Concat for office 2016 and above) Solving Sample Excel Exam
Week 9 (Nov24-27)	Lecture 1	MS Office Simplified	Excel on Campus Exam (computer-based) on Campus

	Lecture 2	Microsoft Office Simplified	Excel on Campus Exam (computer-based) on Campus
Week 10 (Dec1-4)	Lecture 1	CISCO Net Academy	Instructors: should create classes on NetSpace & import student accounts to class. Instructors: should <u>demonstrate - NetSpace Access</u> Each student is to verify his account credentials on www.netacad.com Instructors: should <u>demonstrate:</u> ▪ <u>Course content Access – Digital Awareness:</u> Completing Module 2 & Module3 CISCO Read & Do quizzes (ONLINE) , Make sure all students are done
	Lecture 2	CISCO Net Academy	
Week 11 (Dec8-11)	Lecture 1	Microsoft Office 2010 Simplified	POWERPOINT Create a Presentation: Create a Presentation with a Template, Build a Blank Presentation Slides: Add New Slide, Change the Slide Layout, Edit Slide Text Font: Change the Font and Size, Change the Text Color, Change the Text Style Paragraph: Text Alignment, Line Spacing, Bullets, Numbering, Text Direction, Align text POWERPOINT Insert: Add a New Text Object, Picture, Clip Art, Shapes, SmartArt, Table to a Slide, move a Slide Object, Resize a Slide Object Problem Solving
	Lecture 2	Microsoft Office 2010 Simplified	POWERPOINT Insert: Links (Hyperlink, Action), Text (Date & Time, Slide Number, and WordArt), insert a Media Clip Design: Assign a Theme; apply to all slides, apply to selected slides, Background styles, Hide Background Graphics. Slide orientation Insert and Delete Slides, Reorganize Slides Transition: Add Slide Transitions, Timing [Sound, Duration, Apply to All, Advance Slide (On Mouse Click, After)] Animation: Add Animation Effects (entrance and exit only), Timing [(start with previous, with after), Reorder animation (move earlier, move later)]
Week 12 (Dec15-18)	Lecture 1	Microsoft Office 2010 Simplified	POWERPOINT Slide Show: Start Slide Show (From Beginning, From Current Slide), Setup Slide show (Loop continuously until esc) Elements of a powerful presentation Solving Sample Pwerpoint Exam
	Lecture 2	Microsoft Office 2010 Simplified	PowerPoint Exam (computer-based) on Campus
Week 13 (Dec22-25)	Lecture 1	N/A	PowerPoint Exam (computer-based) on Campus
	Lecture 2	NA	Christmas & New Year Holiday
Week 14 (Dec29-Jan1)	Lecture 1	N/A	Christmas & New Year Holiday
	Lecture 2	N/A	
Week 15 (Jan5-8)	Lecture 1	Handout	Embedding Excel, Word and PowerPoint files in one another [Insert (object, Create from File, Browse, with link, Icon)] Share Online Tuesday Jan 6 Armenian Christmas Holiday – Lecture Shared Online FINAL EXAM (computer-based exam) on Campus
	Lecture 2	MS Office	

Class Rules & Discipline

Attendance Policy

The student is administratively withdrawn (AW) from the class if he/she is absent for more than one third of the classes (15 class sessions for courses offered 3 times a week, 10 for courses offered twice a week, and 5 for courses offered once a week). If the number of absences exceeds the limit after the withdrawal deadline, i.e. including all the period up to the end of the semester, the student will not receive an AW grade, therefore, the final examination must be written, otherwise, an F grade will be granted. When absent, you are responsible for all material presented in class. Missed exams will only be excused by documented evidence as explained in the make-up examination policy below.

A “5%” has been allocated on the “Marking Profile” for attendance. A student who hasn’t missed any lecture will get a full mark on the attendance grade. Every absence, a 20% will be deducted, that is, a student with 5 absences will get a ZERO on that grade.

Cheating

The University policy on cheating will be strictly applied. Students are required to adhere to the policy on academic irregularities contained in the LIU student handbook. Collaboration among students in solving assignments is not acceptable. It is okay to ask another student for advice when stuck on a problem, but if the instructor receives assignments that are substantially equivalent, all involved students will be punished with a grade of zero.

Classroom Manners

All students are expected to conduct themselves in a professional manner. Students should not: keep their cell phones on during the class, disrupt the class, do other course work in class, have side conversations with other students, be rude towards anyone. The first failure to respect these rules will result in a *warning* from the instructor. If a student chooses to disregard the *warning*, he/she will be dismissed from class.

Instructor late to the class

In case the instructor is late the students should wait for 15 minutes before leaving the class.

Abuse of Computing Privileges

The Office of Information Technology maintains policies posted in the computer labs regarding proper behavior in the labs. Failure to adhere to these policies may result in loss of computer privileges, and possible legal action.

Make-Up Examination Policy

As per university council decision, a student is eligible for a mid-term or final examination make-up if and only if he/she had the following incidents:

- a. Sickness; **proved by hospitalization report**; that is; a discharge summary is necessary.
- b. Death in the family **proved by a death certificate** and personal identification.
- c. Accidents **proved by an expert report**.

A student that misses an exam should submit a petition within one week from the examination date. Late petitions will be rejected unless it is an extreme case (Hospitalization as an example).

In case a petition is accepted, the student submits a MAKE-UP exam. The grade of the missing exam will be equal to a percentage % of the Final Exam’s grade. The percentage % will be set by the administration once the petition is approved.

Cheating policy: Any cheating will be rewarded with a zero, all students involved in cheating will get a zero (even if the cheating is in one question). The activity would not be repeated.

Missing Assignments and Projects Policy

- A -10 per day penalty will be applied to late projects (weekends count as two days).
- A ZERO will be applied for late assignments on the next day.

Curriculum, Yearly Plan, and Advising

If a student majoring in Computer Science or Information Technology is planning to graduate in three years then he/she should follow the corresponding major yearly plan. A copy of the yearly plan and the curriculum (which contains the prerequisites and co-requisites of courses) can be picked up from the office of the school of Arts and Science. When not sure about anything please contact your advisor prior to or during the registration period.

Probation Policy

If a student who has attempted 19 credits has a GPA or a major GPA below 2.0 then the student is considered under probation.

E-mails

Students should use their university e-mails in communicating with the instructors. Important announcements, syllabi, assignments, and solutions will be sent to your e-mail accounts.

University Peer Review Policy

All classes will be visited by instructors either from the same or different departments. This policy helps instructors figure out ways to improve student educational experiences in class and eventually their performance.

Snapshots

Students are not allowed to take snapshots of the whiteboard in classrooms using their mobile-phones.

Equivalent Lettering Grades

<u>Percent (%)</u>	<u>QPTS</u>	<u>Letter Grade (G)</u>	<u>Percent (%)</u>	<u>QPTS</u>	<u>Letter Grade (G)</u>
<60	0	F	67	1.7	C
60	1	D	68	1.8	
61	1.1		69	1.9	
62	1.2		70	2	
63	1.3		71	2.1	
64	1.4		72	2.2	
65	1.5	D+	73	2.3	B+
66	1.6		74	2.4	
75	2.5	C+	83	3.3	
76	2.6		84	3.4	
77	2.7		85	3.5	
78	2.8		86	3.6	
79	2.9		87	3.7	
80	3	B	88	3.8	A
81	3.1		89	3.9	
82	3.2		>=90	4	

<u>Grade</u>	<u>Description</u>	<u>QPTS</u>
A	Excellent	4.00
B+	Very Good	3.50
B	Good	3.00
C+	Above Average	2.50
C	Average	2.00
D+	Fair	1.50
D	Poor	1.00
F	Fail	0.00
IP	Course in Progress	
I	Incomplete work	
W	Student has withdrawn from the course	
AW	Administrative withdrawal from the course	
R	Course has been repeated	
S	Satisfactory work	
U	Unsatisfactory work	
%G	Final Grade	
QPTS	Quality Points	

Computer Science Outcomes

Graduates of the Computer Science Program will have the ability to:

	Program Outcomes
category -1 Underlying Conceptual Basis for Informatics	PLO -1 Describe and explain the essential facts, concepts, theories and mathematical methods relevant to computing, computing equipment, computer communication and informatics applications as appropriate to their program of study
	<i>PLO-1 for CSIT=> Gain basic skills in mathematics and outline the characteristics of relevant state-of-the-art hardware and software and their practical application</i>
category -2 Analysis	PLO -2 Select and use relevant analytic, modelling and simulation methods
	PLO-3 Choose appropriate solution patterns, algorithms and data structures
category -3 Design and Implementation	PLO -4 Describe the software development process and apply relevant practical and programming skills to the creation of computer programs, and/or other informatics artefacts
	<i>PLO-4 for CSIT=>Specify and design computing/network hardware/software which meet specified requirements</i>
category -4 Economic, legal, social, ethical and environmental context	PLO -5 Explain the importance of information privacy and security issues in relation to the design, development, maintenance, monitoring and use of informatics-based systems
category -5 Informatics practice	PLO -6 Describe and explain management techniques appropriate to the design, implementation, testing, deployment and maintenance of informatics systems, including project management, configuration management, change management, etc., and including relevant automated techniques
	<i>PLO -6 for CSIT=> Demonstrate an awareness of project management and business practices, such as risk and change management, and understand their limitations;</i>
category -6 Other Professional Skills and Competences	PLO -7 Communicate effectively both verbally and using a variety of communications media
	PLO -8 Plan self-learning and improve personal performance as a foundation for lifelong learning and ongoing professional development
	PLO -9 Participate effectively in informatics group-working
